London, March 28. - Themostseriousnews pet received from Rhodesia is that which came to hand this evening, saying that the pative police had joined the rising

This puts an entirely different face upon the trouble, and the suppression of the trouble, which at first promised to be an easy matter now threatens to be a large undertaking. The main anxiety of the authorities here was central in the

conduct of this force. Though it is only 350 strong it will be a powerful factor in spreading the revolt.

The natives who served as police were recruined from the crack regiments of the old Manabels kinesia. the old Matabele kingdom. They are well trained, well armed and course copious supply of ainti-mittion. Altegrater the outlook is in no wise as favorable as it was yesterday for the speedy putting down of the revolt.

Inquires made at the war office as to the strength of the British troops within range of the revolt, only resulted in making evident the official confusion on the subject. Two companies of the Black Watch regiment are stationed at Mafeking, on the Transvanl border, and these are the other transvanl who are known with certains. only troops who are known with certainty in Rhodesia

Winnipeg. Man., March 28.—Nothing as accomplished at this morning's session ols conference, but the impression alle that a littch exists, as the sessions unusually brief, and after each the situits managers go into executive loss.

The commissioners are in communication with Premier Greenway at Crystal City.

A proposition submitted by the commissioners is said to be under consideration, but the basis upon which they base the claims of the minority to remedial legislation is where the Manitoba government takes issue.

In the freer air of the National Liberal Club, the delegates who have returned to London do not conceal their disappoint ment. The speeches utterly lacked personal inspiration and were kept within the lines dictated by the wire-pullers. Depression

# BERTHELOT IS CRITICISED.

French Newspapers Say That He Resigned From Unworthy Motives. Paris, Murch 28. - The Journal des Debates asserts that M. Berthelot, minister of foreign affairs, resigned his portfolio because he felt that the policy of his colleague in the ministry was contrary

to the public welfare.
Liberte considers Berthelot's resignation a prelude to the downfall of the ministry.

The paper aids: "Germany ought to con-alstently follow the German policy of consulting only German interests, which are opposed to any kimi of conflict with Russia, which is associated with British interests." The semi-official newspapers, on the other hand, exercise great care in combating the idea that formany's action in Egypt wis involve a conflict with fussia.

The Hamburger Correspondent says: "tiermany has supported England in Egypt because her own interests are not touched in doing so. Italy is likely to reap the benefit of the Dongola expedition, but will not interfere where German interests might be injuriously affected, or the peace-ful aims of the Dreibund endangered."

Emperor William Will Make an Ex-

tended Sporting Trip. Berlin, March 28.- The program of the kaiser's movements during the next month shows that he will leave Italy for Vienna April 13, and April 15 will go to Karis-rube for a season of woodcock shooting, remaining there until April 18, when he will go to Coburg to be present at the marriage of Princess Alexandra of Saxe-Colorg to Prince Ernst of Hobenlohe-Langenburg, which will take place on

### LOAN FOR SPAIN'S WAR.

Negotiations Opened in Pavis and London to Secure Funds. London, March 28.—Negotiations for a new Spanish loan have been reopened in Parts and London. It is repried that the Spanish government is destrous of placing a loan of £40,000,000, giving as security a lien on the tobacco monopoly. It is clear that Spain is preparing to carry

on the war in Cuta after August, as it has been announced that the new Cortes will be asked to authorize a loan for that purpose, Since the outbreak of the re-bellion in February, 1895, the Spanish government has obtained from the Bank of Spain, the Bank de Paris et du Pays Bas, Spain, the Bank de Paris et du Pays Bas, and the Spainsh Bank of Havana, successive advances on Cuban 5 per cent bonds of 1890. Before the end of August the rebellion will have cost Spain £16,300,000. At present the minister of the colonies holds only £3,000,000 to keep the war going until August, whereas it is estimated that it will appresent the minister of the parishty. equire a million pounds monthly.

### BUSSIA'S CURRENCY REFORM.

Gold Roubles Are to Be Coined and Paper Withdrawn.

London, March 28.—The Times publishes a dispatch from St. Petersburg which says the belief is strong there that metallic our rency will come into use in Russia, though no official announcement has been made of such a probability. The reform of the currency proposed provides for the coinage of new gold pieces corresponding exactly in value to the existing paper rouble.

The State bank will cease issuing paper on the account of the exchequer, the note issue being put on a similar basis to that of the banks of England and France. The existing paper will be withdrawn in ex-change for the new gold roubles.

The silver rouble will be received by the excelequer to any amount, except in payment of customs duties, but it will be compulsors between persons only up to the amount of fifty roubles.

> End of the Present Cabinet Thought to Be Near-Insurgents Adopt New Tactics.

Tokio, March 13, San Francisco, March 28.—The state of affairs in Korea goes fro moad to worse. Politicians in Seoul insist that by taking

refuge in the Russian legation and remaining there the king has virtually quitted his own domains since the precincts of a legation are extra-territorial. A similar view is held by the leading citizens of the capital, who naturally see that very little power of governing can be accredited to a sovereign and his cabine so long as they dare not venture beyond

the standow of a foreign flag.

The insurgents in the provinces have adopted a new tone, dictated, of course, by adherents of the prince parents party. They say themen by whom the king was persuaded to seek asylum in the Russian legation, are traiters to the country and must be extended.

But they also proclaim that all foreigner must be expelled from the kingdom—an an-nouncement probably intended as a blind. They have pushed to a point not more than they have pushed to a point not more than ten miles from Seoul, and the government has no troops to cope with them. The raising of several new hattallons of royal guartis has been ordered, by eilet, but money to pay them is not forthcoming, even if they could be organized, so speedily as to meet the emergency.

The whole situation, however, is rapidly growing incomparities.

American Insurance in Germany. Perlin, March 28.—The statement was made in the Chicago newspapers recently that Baron Von Recke Der Horst, Prusslan Minister of the Interfor, had declared that American insurance would soon be readmitted into Prussia. This statement was wholly unfounded. The Minister of the interior, in response to inquiries, states that he has not yet received the reports of the subordinate uncillor on the merits of the case.

Diplomats at Nice. London, March 28.—Lord Salisbury has rrived at Nice, which will soon be a aplomatic center. Baron Mohrenheim, the Russian ambassador to France, Lord Dufferin, the British ambassador, an king of the Belgians will be in that city during the next fortnight.

"Why," he said to the reporter, "should the chancellor mention autuum as the date of his retirement? Prince Hohenione did not refer to autumn at all?"

The reporter suggested that the chancellor might have mentioned an earlier period, but Herr Rickert maintained his reticence in regard to the matter, particularly as to the points in dispute between the emperor and the chancellor, and except to say that it would surprise no one in political circles if the chancellor should resign immediately after the emperor returns from his present tour, he would talk no further on the sub-

CIVIL CODE QUESTION. Herr Rickert, alluding to the civil code as the leading question before the Reichstag, expressed himself as confident that part of the code would be passed at the

The condition of the Centrists and Orthodox Professiants, with the object of clim-nating from the code the civil marriage clause, he did not think would be success-ful. The reactionist proposals would not succeed in getting a majority and the government would not accept the amendnents of the ciericals.
